PROFESSIONAL SUMMARY

Results-driven AI student and technology professional with over 3 years of combined experience in customer support, training, and startup management. Passionate about leveraging Artificial Intelligence, computer vision, and software development to build impactful solutions. Adept communicator with proven leadership, team management, and cross-functional collaboration skills.

PROFESSIONAL EXPERIENCE

Manager | American Startup (DC-Based) | 6 Months — Washington D.C., USA (Remote)

- Oversaw daily operations of a U.S.-based startup headquartered in Washington D.C., coordinating across time zones.
- Led a cross-functional team, streamlined processes, and drove measurable improvements in team productivity.
- Handled client communications, strategic planning, and resource allocation to meet business objectives.

Trainer | Customer Support Organization | 1 Year

- Designed and delivered comprehensive onboarding and upskilling training programs for new customer support hires.
- Monitored trainee performance and provided coaching to improve service quality and response efficiency.
- Developed training materials, SOPs, and knowledge-base documentation for the support department.

Customer Support Representative | Customer Support Organization | 2 Years

- Delivered high-quality customer service by resolving queries efficiently with strong communication skills.
- Consistently maintained high satisfaction scores, earning a promotion to Trainer role after demonstrated excellence.
- Collaborated with internal teams to escalate and resolve complex customer issues within SLA targets.

EDUCATION

Bachelor of Science in Artificial Intelligence | Currently in 8th Semester

Pakistan · Relevant Coursework: Machine Learning, Computer Vision, Neural Networks, Data Structures, Networking, Software Development, Database Systems

PROJECTS & TECHNICAL WORK

RC Car with Obstacle Detection · Assembly Language

- Built a fully functional RC car programmed in Assembly Language with real-time obstacle detection capabilities, demonstrating low-level hardware control and embedded systems expertise.

Blind Assistance Kit (Final Year Project) · Computer Vision · Embedded Systems

- Designed a smart assistive kit featuring a detection stick and audio earpiece to help visually impaired individuals detect and navigate surrounding objects using AI and audio feedback.

AI-Based Sign Language Recognition App · AI · Computer Vision

- Developed an application that uses artificial intelligence and computer vision to detect and interpret sign language gestures in real time, improving accessibility for hearing-impaired users.

Truck Alarm System App · Mobile/Software Development

- Built a software application providing an alarm and alert system for truck operations, focusing on safety notifications and driver awareness features.

AI-Based Outfit Generator (Research Proposal) · AI · Machine Learning

- Authored a research proposal for an AI-driven outfit recommendation app that analyzes uploaded clothing images and user preferences to suggest personalized outfit combinations.

Heart Disease Prediction System · Python · Scikit-learn · Random Forest

- Developed a machine learning model using Random Forest Classifier to predict heart disease with comprehensive data visualization, performance metrics, and a full project report.

SKILLS

Programming	Python, C++, Java, Assembly Language, SQL
AI / ML	Machine Learning, Computer Vision, Neural Networks (CNN, RNN, LSTM, GAN, Transformers), Transfer Learning, NLP (BERT, RoBERTa), Autoencoders
Libraries	Scikit-learn, TensorFlow, Matplotlib, NumPy, Pandas
Adobe Suite	Photoshop, Illustrator, Premiere Pro, After Effects, InDesign, XD, Lightroom — Full Adobe Creative Suite
Soft Skills	Team Leadership, Training & Mentorship, Client Communication, Project Management, Problem Solving
Languages	English (Professional), Urdu (Native)

CERTIFICATIONS & COURSES

Google Career Certificates & Badges

- Completed 11 Google courses with official badges covering areas including data, technology, and professional development.
